# Acrylic surfaces

Casali acrylic resin sports surfaces guarantee excellent ultraviolet light resistance that keeps the colours bright for years of play. Thanks to the fact that Casali Sport acrylic flooring is reinforced with carefully selected sands, the product is highly resistant to wear, non-slip and ensures outstanding playing comfort. The absence of joints (seamless), added to simple and inexpensive retopping of damaged flooring, make Casali Sport acrylic systems the perfect choice for indoor or outdoor sports surfaces such as tennis courts, multi-purpose courts, skating rings and cycling tracks. The flooring is available in a wide range of colours that are not only attractive but also make it possible to clearly mark out specific playing areas. The quality of Casali Sports acrylic systems are recognised by the most prestigious certification entities and international Sports Federations.

Our acrylic sport surfaces systems:

- SUPERSOFT
- SUPERSOFT DOPPIO (CUSHION)
- SURFACE EVOLUTION
- SUPERSOFT PRO TURF
- COLORSINT
- COLORTOP
- CONFOSPORT / CONFOSPORT T
- CONFOSPORT FL
- CONFOSPORT IT
- CONFOSPORT PM
- SUPERSOFT SG
- POLYSPORT
- ROLLERTOP

PAVISINT SL 75 7+2mm  
PAVISINT SL 75 10+2mm

Casali polyurethane resin sports surfaces are highly resistant and ensure outstanding performance. These characteristics are guaranteed by the fact that Casali Sport polyurethane systems, that are made with high quality materials, has different thicknesses and levels of elasticity, depending on the flooring to be laid.

The absence of joints (seamless), added to simple and inexpensive retopping of damaged flooring, make Casali Sport polyurethane flooring the perfect choice for indoor or outdoor courts. The flooring is available in a wide range of colours that are not only attractive but also make it possible to clearly mark out specific playing areas.

The quality of Casali Sports polyurethane flooring is recognised by the most prestigious certification entities and international Sports Federations.

# Glues

Casali Sport glues are two-component products formulated to glue synthetic grass sheets, rubber and PVC prefabricated sheets used for sports courts. These glues are formulated to fully exploit the advantages of this technology (pre-dosed two-component), and are available in different versions which, through a chemical reaction, ensure durable and efficient gluing in any condition.

Casali Sports glues ensure excellent adhesion, making them compatible with the most common types of synthetic grass and prefabricated sheets on the market.

Casali Sports glues are used to lay LND (National Amateur League) and FIFA approved football fields.

Our glues and seaming tapes:

PASTE  
 PASTE MP 150  
 PASTE EP 11

BANDA GT 30  
 BANDA KF 40  
 BANDA NT 30

*Application in **humid environment**  
 High level of reactivity  
 Ideal for winter application*

## **SPORTRACK SW PM**

## **SPORTRACK SW PF**

## **SPORTRACK SC**

Casali Sportrack SW-PF, Sportrack SW-PM and Sportrack SC are professional sports flooring systems for athletic tracks used for competitions and training. They ensure excellent performance in any weather.

Casali Sportrack SW-PF (IAAF certified) is a waterproof sandwich type system, consisting of a 10 mm prefabricated rubber mat and polyurethane resin coating with EPDM granules sprinkled on the top. Athletes will appreciate the comfort and uniform elastic response of this track, guaranteed by the use of a prefabricated deck and final layer that give a uniform thickness; the technical characteristics of this track never diminish over the years.

Casali Sportrack SW-PM (IAAF certified) is a waterproof sandwich type system, consisting of a base layer laid on site, specifically graded sbr rubber granules and polyurethane binder, as well as a polyurethane resin coating with EPDM granules sprinkled on the top. The track is laid on site and is perfectly uniform and seamless; Casali Sportrack SW PM is specifically designed to reduce trauma, optimising the elastic energy return and improving sports performance, while ensuring a uniform dynamic response.

Casali Sportrack SC is a semi-draining type flooring system consisting of a base layer laid onsite, specially graded sbr rubber granules and polyurethane binder, and coloured polyurethane resin compound top layer with EPDM granules applied in several coatings by spray gun. Laid on site and perfectly uniform and seamless, the track is specifically designed to reduce and prevent injuries, thus optimising the elastic energy return and improving performance, while ensuring a uniform dynamic response. This track ensures excellent performance in any weather.

Since 1992, Casali has been dedicating a great deal of time and effort to develop high performance seamless acrylic and polyurethane sports flooring, and gluing systems for artificial turf. With over 7500 courts and sports fields builded all over the world, Casali Sport is one of the today most known brand for sports surfaces.

*In more than one hundred Countries all over the world, Casali is a benchmark brand synonymous of quality, professionalism and technical assistance in the building industry.*

*Founded in 1936 as a manufacturer of products for the protection of buildings against the action of water, since then Casali has worked to find the most innovative and efficient solutions, taking into account the most up-to-date developments in building techniques and the need to protect the natural environment as a precious resource. In our very long history, we have acquired an experience which is unique, placing it at the service of our customers with reliable products and systems, to resolve even the most complex building problems, above all those related to waterproofing, and later with products to ensure sound comfort, besides sports surfaces.*
